**Heure** 1:30 p.m. to 4:00 p.m.

**Numéro de salle** 519A

## **Conférencier**

Doctor Nigel Pitts, FRSE  
BDS PhD FDS RCS (Eng)  
FDS RCS (Edin) FFGDP  
(UK) FFPH – Perth, Scotland

**Présentation en anglais, aucune traduction  
n'est offerte.**

## **The ACFF and its Evolving Mission – the (Dental) Public Health Perspective**

The Alliance for a Cavity Free Future in its original Declaration in 2010 made clear that "Global collaborative action is needed to challenge global leaders and other stakeholders - including country and community leaders, health and dental health professionals, public policy and education communities, and the public - to learn the importance of caries as a disease continuum and to participate in action toward the delivery of comprehensive caries prevention and management that can positively influence the continuing problem of caries.

This action should ensure that primary prevention with appropriate fluoride strategies are in place, promote the preventive control of initial caries lesions through education to change human behaviour and the use of appropriate, evidence-based technologies." Since that time the charity has been pursuing that Mission and its evolving Goals in the context of changing challenges and opportunities, including the WHO Global Oral Health Action Plan, the Bangkok Declaration and our work with "ACFF Oral Health Policy Labs". An overview will be provided from the (Dental) Public Health Perspective
